

DataIA

**The AI Institute
of University Paris-Saclay**

JDSE 2026

Fatiha Saïs

Deputy director for Training of DataIA

fatiha.sais@universite-paris-saclay.fr

One simple idea: bring together campus strengths to accelerate projects and create more synergies.

DataIA: a leading French ecosystem in Artificial Intelligence

In the turbulent times we are experiencing, innovation and scientific research are our compass. And Université Paris-Saclay is one of our strategic assets in making France a nation that thinks, designs, and masters artificial intelligence"

French Minister for Artificial Intelligence and Digital Affairs - April 2025

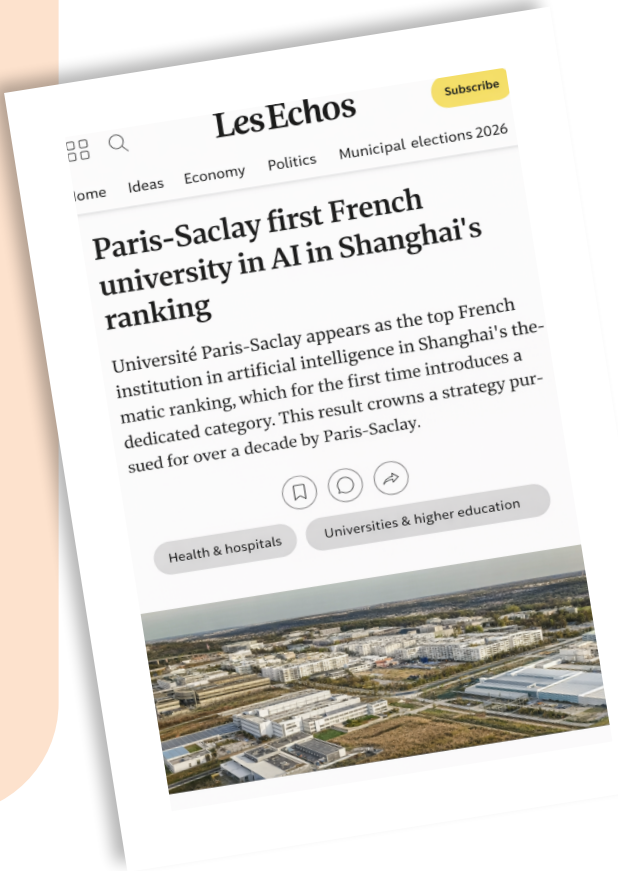

université
PARIS-SACLAY

1st

French university in AI
(Shangai Thematic Ranking 2025)

13th Top Worldwide University
2nd in Mathematics
6th in Physics

11 Fields Medals
9 Nobel Prizes

université
PARIS-SACLAY

INSTITUT
DATAIA
Science des données, Intelligence & Société

47
laboratories

20 AI Research Chairs
(different types)

800+
researchers, professors
and research engineers in
AI

25 research projects
(multi-partner)
launched since 2018

450
PhD students
(incl. 170 internationals)

50 000 students & 20,000
faculty and admin staff
(to be AI-literate)

+6 500 AI publications

université
PARIS-SACLAY

INSTITUTE
DATAIA
Data Science, Intelligence & Society

DataIA is focused on research excellence,
training and innovation in AI

université
PARIS-SACLAY

INSTITUTE
DATAIA
Data Science, Intelligence & Society

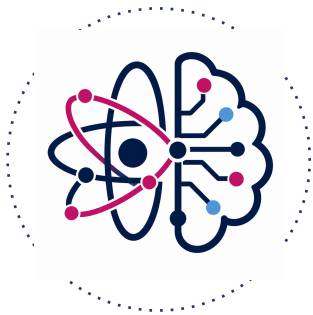

Research programs

3 interdisciplinary research domains

Maths & AI

Using stats, probability...to invent new fundamental methods and make AI more reliable, robust, and explainable

Physics & AI

Using AI to explore complex physical systems and drawing inspiration from physics to invent new AI models. *Example: hybrid AI models for predicting climate dynamics*

AI for Health

AI applied to ensure reliability and clinical acceptability.
Example: AI models for medical diagnosis based on images (radiology, histology).

How we work

- 3 large-scale strategic research projects open to contributions (Synergy Chairs)
- ≈ 10 flexible research projects open to co-fundings (Modular Chairs)
- Others research activities (working groups, junior conf, joint lab mission)

3 scientific issues

How to build an AI :

université

Data Science, Intelligence & Society

Training programs

Massification & acculturation to train the next generation and build an “AI Native” nation

1

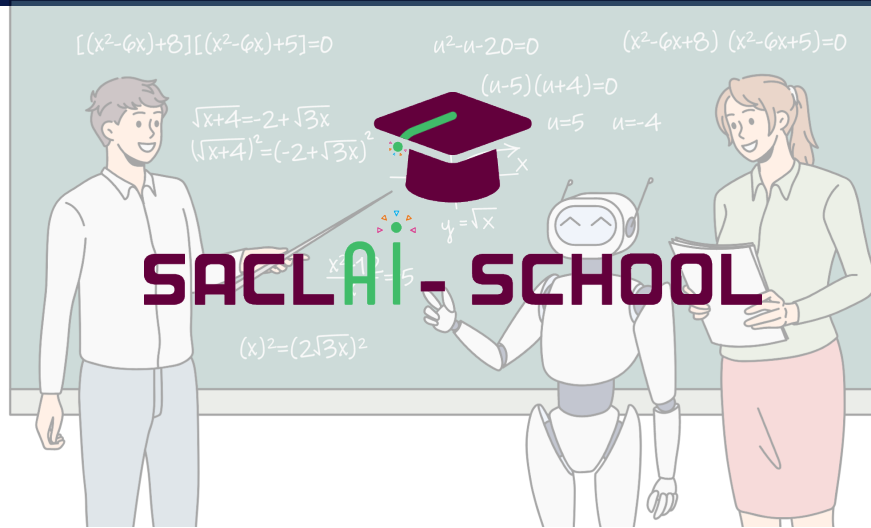

Massify Training in AI and Data Science at University and society - New Open Courses (1400 initial training), More AI in Courses (760 in coloration) - All levels (Bachelor's, Master's, PhD, Executive Education) + #BrevetAI

2

Helping Students from high school to job market. Promoting inclusion and gender diversity and parity - MixtAI scholarships + peer tutoring platform

3

Develop Tools (e.g. platforms) **and content** (MOOC, SPOC) at the interface between higher education, universities and grandes écoles, to foster pedagogical innovation.

Education for All - #BrevetAI Initiative

- **AI acculturation** for entire society, not just experts.
- **Learning-by-doing:** gamified, interactive platform
- **Scale:** reaching 70k people locally and aiming for national/international expansion....
- **Professional Training:** used as a gateway to a catalog of continuing education + co-design of executive module with our corporate partners

Master's internships

Access AI projects offered by laboratories and partners.

Opens on September, 28th

Scholarships

Find funding and calls to continue into research.

International mobility

Spend time in an affiliated or partner laboratory.

Opens on September, 30th

Data challenges

Work on real cases with data, experts and engineers.

Entrepreneurship

Use incubators to turn an idea into a project.

Networking

Meet researchers, companies, startups and students from other fields.

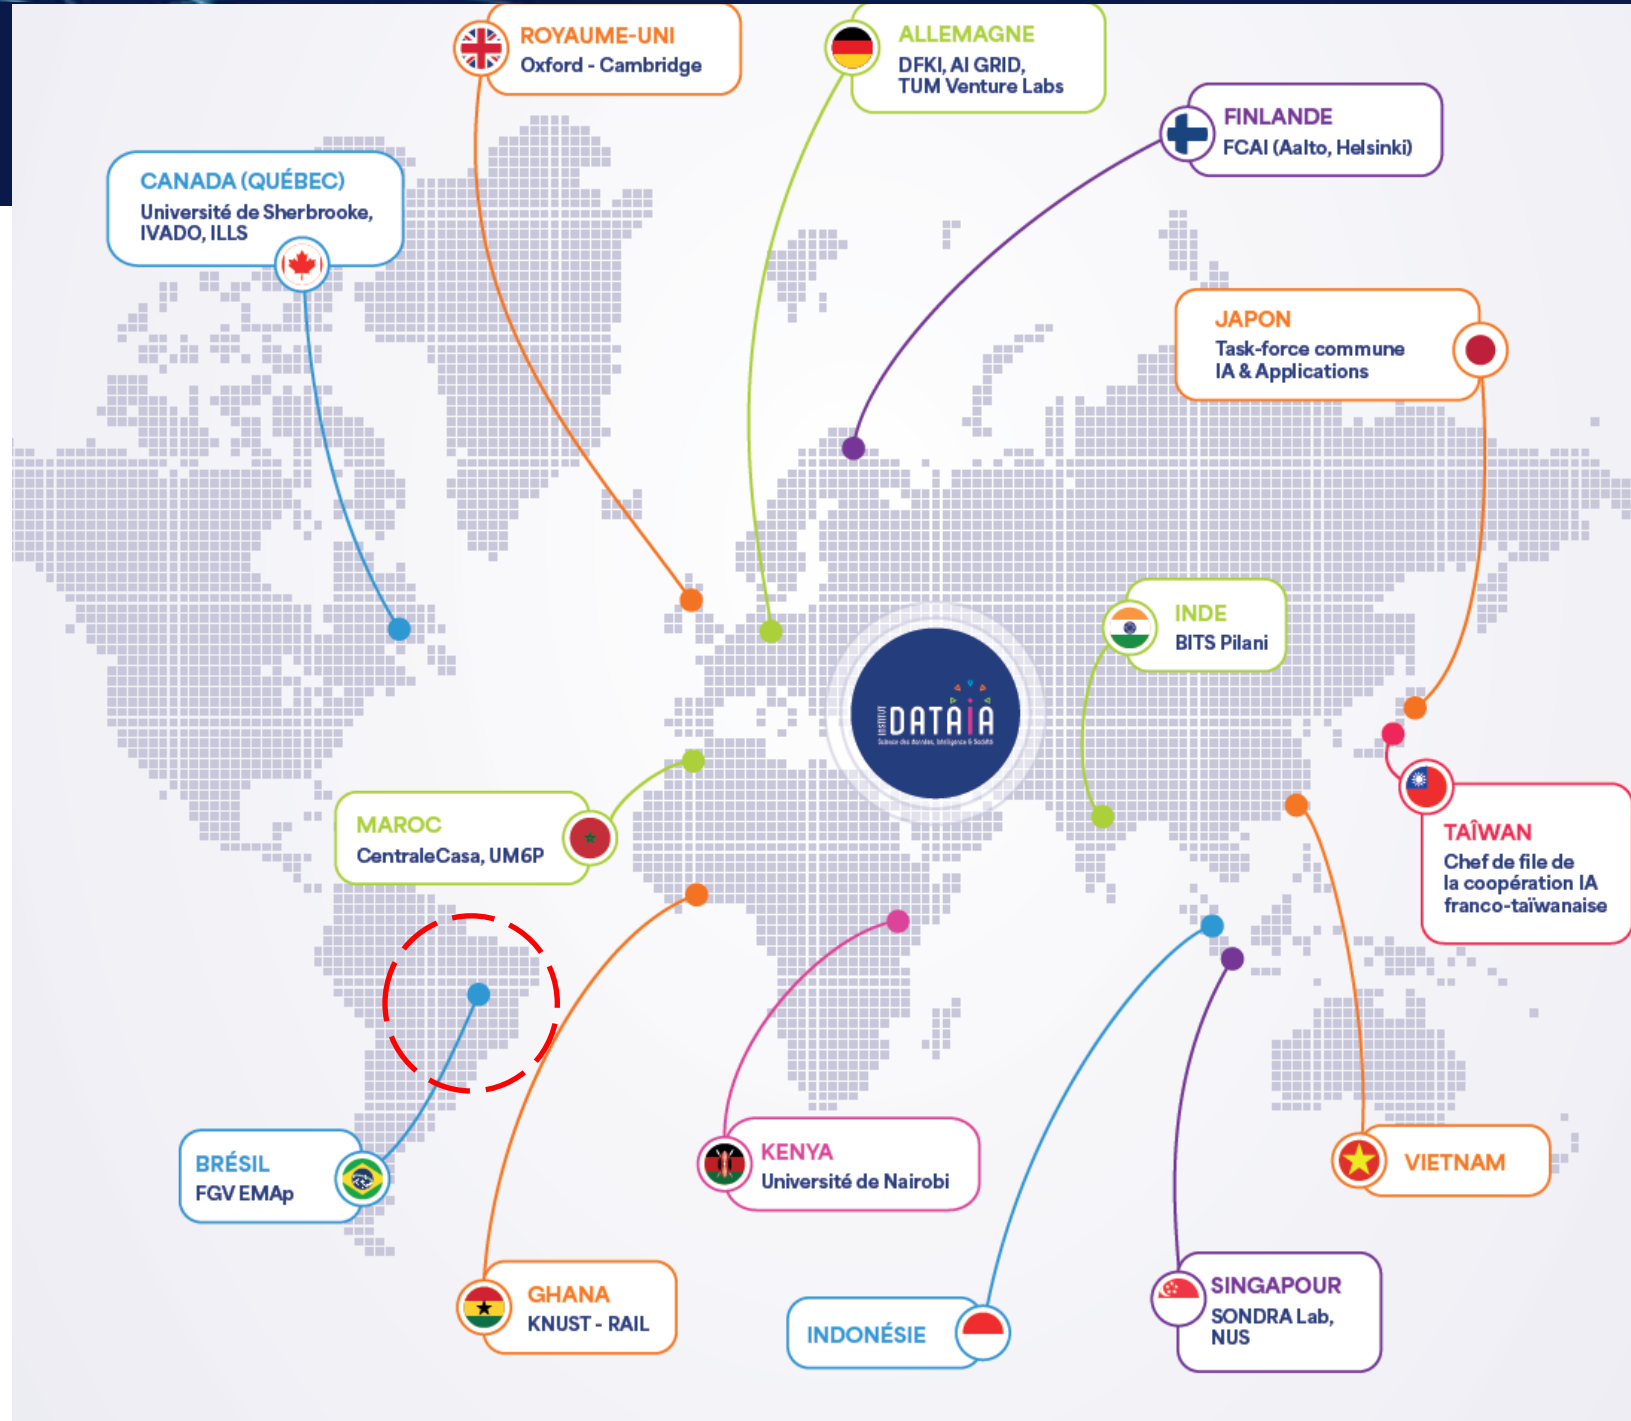

**DatalA acts as an accelerator:
it makes opportunities easier to find and people easier to connect.**

GLOBAL ALLIANCES

- **Incoming and outgoing PHD mobility with affiliated labs**
(max 2000€/month of mobility)
- **Visiting professors** in affiliated lab
(1 to 12 months; 4000€/month + travel fees=1000€)
- **Business development operations** (BrevetAI, startup exchange program)
- **Supportive actions & funds for :**
joint workshops / conferences, seminars, summer schools, matchmaking...

➤ applications are reviewing by our Steering Committee every 3 weeks

JDSE 2026 • DATAIA Institute

PhD Delegation to **AI Day 2026**

3-day visit to Finland for Université Paris-Saclay PhD students working in AI

Join the Paris-Saclay delegation to AI Day 2026 at Aalto University, Espoo, on **October 20, 2026**.

AI Day participation

15-minute presentation of your PhD research

Meetings with Finnish researchers and PhD students

Travel & accommodation **fully covered by DATAIA**

1 doctoral training point awarded by ED STIC

Apply by September 28, 12 PM CEST

Application: framaforms.org/paris-saclay-phd-delegation-to-ai-day-2026-in-finland-1790005628
